Max Gross Weight: 32,000 lbs

Max Endurance: 5.45 hrs

Max Speed: 450 kts

Max Range: 1,940 nautical miles

Propulsion Type: 2 Garrett
ATF3-6-2C Turbofan

For more information on the Coast Guard visit the Internet at <http://www.uscg.mil>. For recruiting information call 1-877-NOW-USCG.

The 13th Coast Guard District does not have any HU-25 aircraft in our assets. However, we may call upon them during a search and rescue mission, or other emergency.

The HU-25 Falcon Jet is a medium-range surveillance fixed-wing aircraft that is used to perform search and rescue, enforcement of laws and treaties including illegal drug interdiction, marine environmental protection, and military readiness. The HU-25 (A), HU-25 (B), and HU-25 (C) are three variants of the HU-25; the primary difference is in the installed sensor package.
